The Home Buyer Checklist identifies some of the important factors to consider when choosing a home. In addition to an affordable sales price, you will also want to be sure that the neighborhood and house meet the needs of your family.

Take this checklist along when you go shopping for your house. It will help you evaluate the neighborhoods and assess the availability and condition of various features of up to three homes in a side by side comparison.

The Location

Yes No Check

- Does the area have, or will it have, all the amenities you might need (eg. shops, schools, transport)?
- Is it zoned residential?
- What are the local council's building requirements?
- Is the electricity connected?
- Is the sewer connected?
- Is this a flood-prone area?
- Is there air-traffic noise in this area?

The Land

- Is there backfill, loose boulders or excess water seepage?
- Is there steep grading or are there dense trees? If you are considering extensions, you may need to get an engineer's report to assess the block.
- Is it free from landslip? Check with the local council, and if necessary, obtain a geo-technical engineer's report.

Outside the Property

- Is the paintwork in good condition?
- Is the building free from damp? Look for signs of damp around window sills, on ceilings and under floor coverings.
- Are there any cracks in the walls?
- Are the roofing, guttering and downpipes in good condition?
- Is there a garage or carport?
- Are paths, fences and retaining walls in good condition?

- Is it possible to extend the property for future needs?
- Has the property already been added to?
- Were the extensions approved by council?
- If there is a pool, does the fencing comply with safety standards?
- Is the pool or spa equipment operational?

Inside the Property

- Are the walls and ceilings in good condition? Remember to check behind furniture.
- Is the floor level and in sound condition (eg. are timber floors free from spring, are concrete floors free from cracks)?
- What is included in the contract (eg. floor coverings, curtains, blinds, light fittings, air conditioning, heating appliances)?
- Are any inclusions fully paid for and what is their condition?
- Is the property insulated, ceilings and walls?
- Is there good natural lighting and ventilation in all rooms?
- Do the windows and doors open and close properly?
- Are there any flyscreens?
- Check the number of power points. Are they suitably located?
- Is the telephone connected?

Yes No Check

- Is there a TV antenna and outlet? Is it included in the sale?
- Will your furniture fit into the property?
- Are doorways and passageways wide enough to move furniture through?

Kitchen

- Are there sufficient cupboards and is there enough bench space?
- Do the cupboards open and shut properly? Test.
- Do the stove and hotplates work properly? Test.
- Will your refrigerator fit?
- If there is a dishwasher, is it included in the sale? If not, is there room for a dishwasher and microwave oven?
- Turn on all taps to check for water pressure and water hammer. Does water in sinks and wash basins drain away quickly?
- Are there sufficient power points?
- Is the lighting adequate?

Bathroom

- Is there sufficient ventilation?
- Is there an exhaust fan?
- Is the shower recess free from leaks? Test to see if water leaks through or under the screen.
- Are there sufficient power points?
- Is the lighting adequate?
